

## AGILE SCRUM PRACTITIONER

*"Simplicity does not Precede Complexity, but Follows it. Simple AGILE follows after Complex Waterfall"*

### Program Overview

Rapidly changing market conditions are requiring companies to shorten delivery cycles and become more responsive to customer expectations. Agile development methodologies are leading the way, helping software development teams adjust to the new economy. Agile challenges our notion of software engineering best practices, project management methodology, and how we lead our teams. The Agile movement impacts every role on a project team differently and creates opportunities to learn new skills and develop new ways of working together.

Agile Scrum Practitioner is a 2-day course designed to introduce the time-tested practices for managing product backlogs, planning your releases and iterations (Sprints) and tracking and reporting progress. Participants will learn how to effectively plan and run daily Scrum meetings, sprint planning meetings, sprint reviews, retrospectives, and more. The approach taken is mainly to make the participants understand the principles and practices of Agile and Scrum and can go back to their companies and implement the Scrum framework effectively.

### Learning Objectives

**At the end of the program, participants are expected to:**

- Learn and understand how the Agile process can improve system development;
- Gain knowledge on how to conduct an Agile project;
- Understand the underlying principles of Agile;
- Learn and understand the components and roles of Scrum;
- Learn how to be an effective Scrum Master and improve engineering practices to deliver high-quality products.

### Benefits

- Deliver the highest business value features and will avoid building features;
- Barriers are prioritized and systematically removed, further increasing productivity and quality;
- Produce an exciting product for the customer, develop high team spirit and satisfying work;
- Generate high productivity and customer satisfaction and achieve market and financial goals ;
- Reduce wastes, increase innovation and visibility.
