## ORGANIZATIONAL PROJECT MANAGEMENT MATURITY MODEL (OPM3)

Accepting projects that are not aligned with your company and its goals would more likely to be a liability than an asset. Misallocation of resources, abridgment of strategy, and disorientation of the company identity; these are just some of the implications that Organizational Project Management is designed to tackle.

**Organizational Project Management Maturity Model (OPM3)** is a 2-day course structured to help the participant gauge their company's current project management maturity and formulate a model that will boost their portfolio management performance. The course is aligned to the OPM3 Model as set by PMI.
